

# spring at your doorstep

Photos by Martha

These are the animals  
new homes.

Can you spot any animals?

Look, this flower is called a Cistus  
Ladanifer

Look at this beautiful Holly can you count how many berries there are together?

There are actually  
12 berries

# We also have plants indoors

# There can be all different coloured leaves

# Look, I have found more white flowers

There can be big flowers...

...and there can be small flowers

I can see loads of little seeds on the dandelion clock. Shall we blow it?

There are lots of flowers and bugs in our garden

Do you like buttercups? I do!

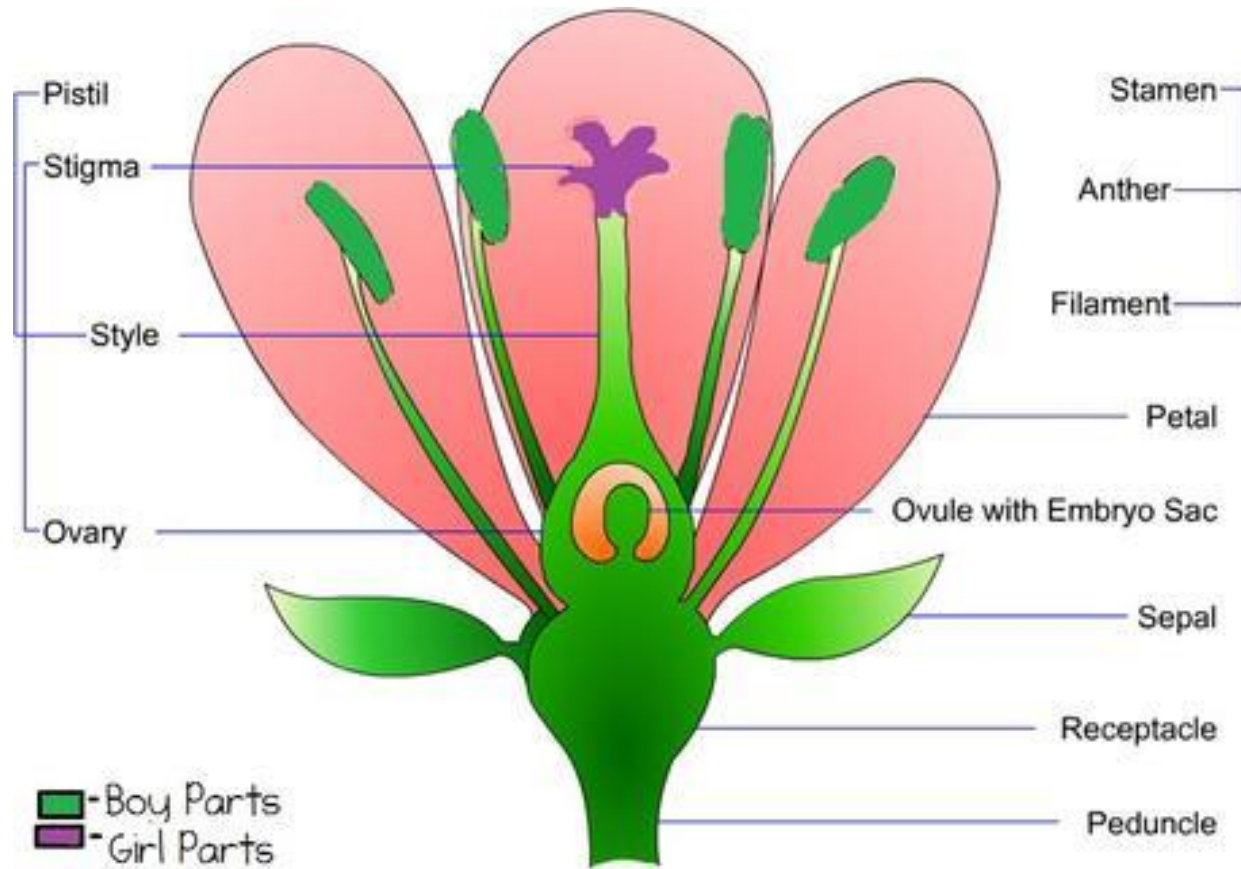

Look I have found another type of dandelion

These are red tulips

# These are all different parts of a flower

Any  
questions

*thank you for listening*
